

Thomas Telford School

COVID-19 Risk Assessment October 2021

Reviewed October 2021

TTS – Risk Assessment

September 2021

Key principles:

- Face coverings are no longer recommended in school, but are still to be worn on school coaches, in communal areas and moving around school
- Students are no longer organised in bubbles
- Cleaning regime during day with cloakroom/toilet supervisors keeping toilet areas monitored, with additional measures to be undertaken by staff/students after using venues
- Strong emphasis on personal hygiene
- Good ventilation to be maintained in all working areas whenever possible and CO2 monitors to be installed
- Supportive and caring environment for staff and students
- Timely and measured response to any symptomatic staff or students working closely with public health authorities and readiness to apply contingency measures if required

Content

- Students and staff asymptomatic testing
- Face masks when travelling on school coaches and moving around the school
- Hygiene and cleaning
- Ventilation and social distancing in venues
- Students or staff displaying symptoms
- Student emotional distress
- Vulnerable staff and family members

Risk Assessment Thomas Telford School – COVID - 19

Location / Site	Insert location and site where activity taking place
Old Park Telford	
Activity / Procedure	Insert name/type of activity or procedure being assessed
Review of Risk Assessment	
Assessment date	Insert date when assessment is being carried out
06 October 2021	

Identify people at risk	YES or NO
Employees	YES
Children	YES
Visitors	YES
Contractors	YES

Control measures

You should:

- Ensure good hygiene for everyone
- Maintain appropriate cleaning regimes
- Keep occupied spaces well ventilated
- Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19
- Take preventative measures

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Risk of spread of virus concerning asymptomatic students and staff			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. DfE guidelines are followed when making arrangements for asymptomatic lateral flow testing to be undertaken by students and staff from home and at school when necessary. 2. Students and staff will be supplied with sufficient testing kits to undertake a lateral flow test twice per week on a Wednesday and Sunday evening. 3. Instructions for these tests are provided in the test kits and also on the school website. 4. All results should be reported to the NHS COVID-19 results portal. 5. If a student or member of staff tests positive they are expected to notify the school immediately by emailing covidresults@ttsonline.net and begin a 10 day isolation. A confirmatory PCR COVID-19 test in the community should be arranged immediately. 6. If the PCR COVID-19 test is also positive then the 10 day self-isolation period should continue. 7. If the PCR COVID-19 test is negative then the student or staff member should notify the School immediately and will be able to return to school providing they have no symptoms. 8. Contacts of positive cases will be managed by the local Public Health Team but there is no longer a requirement to self-isolate, although a PCR test is recommended. 9. If there is a localised outbreak of cases in the School the Public Health Team may insist on further preventative controls to be re-introduced, including self-isolation. 10. Cleaning staff will use the “fogging” machine on a daily basis in areas such as the learning basis in order to ensure they are thoroughly disinfected. 11. Perspex screens are used around school, for example in Reception and the Careers Centre, giving additional protection to staff and students. 12. Visitors on site are asked to carry out a lateral flow test before arrival. 			
Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Air born transmission whilst students are being transported to and from and moving around the school resulting in direct transmission of the virus			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Students travelling on school coaches or public transport must wear face coverings. 2. Hand sanitiser will be provided and should to be used on the journey when getting on and off the coach. 3. A natural staggered start with students arriving between 7.45am and 8.20am. 4. Face covering must be worn on entering and leaving school in cloakrooms, when moving in corridors during the day. 5. Year group assemblies and staff briefings will resume but with students and staff sitting on every other row. 			
Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Risk of spreading virus due to poor hygiene around school resulting in indirect transmission of the virus			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Extra sanitisers and refills in each classroom/venue. 2. Regular hand washing/sanitising to be undertaken. 3. Tissues and anti-bacterial wipes to be made available in classrooms which can be used to wipe telephones and photocopiers. Photocopiers and telephones must be wiped down thoroughly before and after each use. 4. Use of shared resources to be minimal and equipment and resources sanitised regularly including computer work stations. 5. Students/staff hand wash or sanitise on entry to school, before and after breakfast and lunch, using the toilet, after handling any practical equipment and any time they cough or sneeze. 6. Cloakroom and toilet supervisors at main toilet areas throughout the day monitoring student numbers and ensuring facilities are cleaned on a constant basis. 7. Washing hands posters in all washing areas and displayed around the school. 8. Regular reminders on the importance of good personal hygiene to be shared on broadcast, in assemblies and in staff briefings 9. Explicit teaching & posters on how to cough/sneeze into the bend in your arm and catch it, bin it, kill it. 10. Bins with lids to be emptied regularly and high touch points cleaned. 11. Cleaning team will be available all day to assist with cleaning procedures.

Identify hazard		Record the hazard that could cause harm or injury – add appropriate detail about the type and location of hazards	
Risk of spreading virus due to poor ventilation and social distancing in venues			
Existing level of risk		Consider current level of risk	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. All occupied venues should maximise ventilation whenever possible. This includes opening doors and windows to encourage the circulation of air. 2. In colder weather thoughts needs to be given to a balance between good circulation and the room temperature. This may involve intermittent opening of windows during the day. 3. Teachers should continue to keep a sensible social distance from students in teaching venues and other areas at all times. They should position students away from the teaching desk space whenever possible. 4. A student seating plan should also be kept for every session with students encouraged to distance from each other when appropriate to do so. 5. CO2 monitors will be provided by the DfE to all state-funded education settings from September 2021, so staff can quickly identify where ventilation needs to be improved (not yet received by TTS).

<ol style="list-style-type: none"> 1. Students and staff will be instructed not to attend school if they are displaying symptoms and need to book a PCR test immediately and self-isolate. 2. We will ask parents/carers/staff to inform the school immediately on receipt of the result. 3. All staff to remain vigilant of student welfare throughout every session and around school. 4. If any student or member of staff reports feeling unwell with any of the symptoms the Conference Suite is the designated medical waiting area and is strictly out of bounds for anyone other than the School Nurse and unwell students. 5. The medical waiting area will be cleaned thoroughly between users. This includes daily use of the fogging canisters to ensure all fabric screens are cleansed. 6. Students and staff will sit on plastic chairs only. 7. PPE clothing will be available for staff who may have to attend to a student or colleague requiring support or medical attention. 8. A good stock of disposable aprons, gloves and face masks are available in addition to face visors offered to all staff that might be involved in managing students presenting symptoms. 9. Staff and students need to understand if they are displaying symptoms they will be sent home and need to get a PCR test immediately and self-isolate. 10. If the result is negative the individual can return when they are feeling well. 11. If the result is positive the individual should follow the stay at home guidance for households with possible or confirmed COVID-19 infection and must continue to self-isolate for at least 10 days, only returning to school if symptoms have disappeared. 12. The school will act swiftly if there is a confirmed case of COVID-19 and work closely with the local health protection team and follow the NHS Test and Trace protocols. 13. Remote learning is available for any student absent from school. 14. The School will constantly review student and staffing absence and would not rule out the possibility of a partial or full school closure in the event of an outbreak. 15. Guidance from the DfE/LA and Government medical advisers is regularly updated and staff will be informed accordingly.

Control measures		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Small numbers of students may require support for their emotional needs. 2. Students may have lost a loved one or experienced a difficult time because of COVID-19. 3. Refer all cases of concern to Jamie Norman who will delegate referrals as appropriate. 4. The Nurture Room is in operation and will be used as a safe space to support vulnerable children. 5. The Personal Tutor remains the first point of contact. Communication can still continue via email and telephone and personal tutors should make a concerted effort to look out for the welfare of all their students as always.

<ol style="list-style-type: none"> Those who are clinically extremely vulnerable (those who have received a letter from government or clinician) must take particular care while community infection rates continue to rise and fall. Clinically extremely vulnerable staff are advised to discuss concerns with the School in line with Government guidance. An individual risk assessment should be agreed with the line manager. Those who are clinically vulnerable e.g. asthmatic or people with particular characteristics which may put them at comparatively increased risk of COVID-19. If individuals are concerned we recommend a discussion takes place with their line manager and the school will try and accommodate any additional measures that may be necessary. Risk Assessments are in place for anyone classed as CV or CEV. Once informed of a pregnancy, the School will consider how best to ensure the individuals health and safety in the workplace. Pregnant colleagues and the School will refer to the latest guidance from the Royal College of Obstetricians and Gynaecologists https://www.rcog.org.uk The School will consider the risks before and after 28 weeks of pregnancy. Those living with someone who is clinically extremely vulnerable or clinically vulnerable can attend school and work with children.

OVERALL level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE
Assessor's comments		Insert comments relevant to findings as appropriate	
This risk assessment complies with advice offered by the DfE relating to COVID – 19. The measures taken will reduce the risk of COVID-19 infection but the measures taken are not able to eliminate the risk entirely.			

Name of assessor	Signature of assessor	Date
Stephen Turton		31/8/2021

Headteachers comments	Insert comments relevant to assessment as appropriate
We have endeavoured to comply with Government recommendations and at the same time optimise the safest conditions possible for students and staff.
